

ISTeC Executive Committee meeting  
**Minutes**  
**Wednesday, November 30, 2005**

1 – 2 pm in Engr C101B

Attending:

H.J. Siegel, Pete Seel, Michael De Miranda, Pat Burns, Pam Jones, Sanjay Rajopadhye

1. There were multiple requests for a programming contest by attendees at High School Day. Wim Bohm in CS has indicated he would be willing to coordinate. Pat Burns also indicated that he was involved in a contest in the 1990s with NCAR and would be willing to offer his insights into such a process. Michael De Miranda indicated that he has been contacted by a group called JETS (Junior Engineering and Technology Students) which is a nation wide organization that coordinates such events – and they are looking for a host in Colorado. Michael will contact JETS and coordinate a meeting.
2. Pam Jones, Director of Corporate and Foundation Relations explained what CFR's function is and how it and she can help ISTECC.
3. Pete Seel discussed the revised version of the Senior FITness Survey. Revisions incorporated were suggested at the EAC and IAC meetings. Some additional question details are still being completed but Pete hopes to have the survey ready before the holiday break. The survey has gotten very large and the time to take the survey may exceed the time allotted. It will be tested to see where it falls within the timeframe and modified as needed.

Next ISTECC Executive Committee meeting will be Wednesday, December 14, 2005, 1 – 2 pm in Engr C101B.
