Meeting convened at 0900 with introductions.

- Tony Frank, new Senior Vice President, spoke on "Duties and Plans – Implications for IS&T at CSU"
 - IT remains a priority for CSU
 - CSU interested in developing "Scholarly Clusters"
 - If research doesn't match up with societal need – is there a need for the research? CSU needs to be an effective partner with society
- Robert Marcus, SRI, IAC Member, Director of COGrid spoke on the status of the Colorado statewide computing grid (COGrid). ([briefing](#))
 - CSU is developing relevant software supported by a CIT grant.
 - Comments from the members indicate that security needs to be priority to prove value of the grid.
- Pat Burns, new CIO and Associate Vice President for Information and Instructional Technology spoke about his duties, plans, and implications for IS&T at CSU. ([briefing](#))
- Michael De Miranda, ISTeC EAC Co-Chair, spoke on the first annual ISTeC “High School Day” ([briefing](#))
 - Great success with approximately 125 students and counselors from Colorado front range attending.
 - Members suggested it be coordinated with PACE?
 - Corporation representatives would have liked to have had more time with the Counselors.
 - Coordinate corporate visits?
 - Investigate possibility of high school curriculum input from corporations?Next year ISTeC “High School Day” will be on Friday, October 7, 2005. Lockheed Martin, CableLabs, LSI, and SUN all agreed to be sponsors.
- John Hoxmeier, CSU Computer Information Systems Department, spoke about IS&T in the College of Business. ([briefing](#))
- Pete Seel, ISTeC EAC Co-Chair, briefed the Members on the planned CSU/HP conference "Future Vision 2010."
 - Suggestions from members for additional tracks: Nano-technology, spin computing, Microsoft work environment, future of the internet.
- H. J. Siegel, CSU ISTeC Director spoke about the proposal underway for an IS&T "Super Cluster" program at CSU.

IBM (Joan Mitchell) agreed to host the Spring 2005 IAC meeting. A date is TBD.

Meeting concluded at 1:30.
