

ISTeC (Information Science and Technology Center) Research Advisory Committee  
 Retreat on the Scientific and Engineering Foundations of Information Science and  
 Technology  
 Saturday, May 8, 8:15am to 3:00pm, Lory Student Center

**DOSSIER**

Name:	Pat Burns
Department:	VPRIT
Email:	Patrick.Burns@Colostate.edu
Office Tel:	1-5778
WWW URL:	N/A
Research Interests (one paragraph): Monte Carlo simulation, alternative energy, large-scale computing	
Titles of current research projects (funded or not): CSU Prototypical COGrid Node	
Current collaborations inside and outside your department: COGrid	
Breakout sessions you would like to attend at the retreat (please rank order from 1 to 3):	
2	Alternative models of computing
1	Computing and information processing in support of basic science and engineering
3	Dense sensor networks
	Imaging and tracking
	Automatic image, text, and speech recognition for multimodal interfaces and search engines
	Other (Please suggest a title.)

Faculty at CSU whom you would like to see included into your preferred breakout group:  
Sanjay Rajopadhye

One optional paragraph you would like other participants to read before the retreat:
