

ISTeC (Information Science and Technology Center) Research Advisory Committee
 Retreat on the Scientific and Engineering Foundations of Information Science and
 Technology
 Saturday, May 8, 8:15am to 3:00pm, Lory Student Center

DOSSIER

Name:	Haonan Wang
Department:	Statistics
Email:	wanghn@stat.colostate.edu
Office Tel:	491-2449
WWW URL:	
Research Interests (one paragraph):	
Functional data analysis and application; multivariate analysis; statistical methodology on populations of trees; linear or nonlinear dimension reduction.	
Titles of current research projects (funded or not):	
Current collaborations inside and outside your department: Thomas Lee, M. Giovanna Ranalli, Hari Iyer	
Breakout sessions you would like to attend at the retreat (please rank order from 1 to 3):	
	Alternative models of computing
	Computing and information processing in support of basic science and engineering
	Dense sensor networks
1	Imaging and tracking
	Automatic image, text, and speech recognition for multimodal interfaces and search engines
	Other (Please suggest a title.)

Faculty at CSU whom you would like to see included into your preferred breakout group:

One optional paragraph you would like other participants to read before the retreat:
